

SnakeModule::eventHandler

```
graph LR; A[SnakeModule::eventHandler] --> B[SnakeModule::updatePos]; B --> C[SnakeModule::directOK];
```

The diagram illustrates a sequence of three method calls within the SnakeModule class. It consists of three rectangular boxes arranged horizontally. The first box, labeled 'SnakeModule::eventHandler', is white with a black border. A blue arrow points from its right side to the second box, labeled 'SnakeModule::updatePos', which is also white with a black border. Another blue arrow points from the right side of the second box to the third box, labeled 'SnakeModule::directOK', which is shaded gray with a black border.

SnakeModule::updatePos

SnakeModule::directOK
